# ABOUT US

PT. Labora Prabu Gemilang is an Indonesian company dedicated to delivering reliable and innovative solutions in the field of industrial automation and power transmission.

Founded with a strong technical foundation and industry insight, we specialize in the distribution of high-performance industrial components such as gearboxes, electric motors, inverters, coupling systems, and related mechanical drive products. Beyond product supply, we also offer installation, commissioning, and technical support to ensure optimal performance in every application.

With roots in engineering and experience in the field, we are committed to supporting industries with the right technology, efficient systems, and trusted expertise.

# OUR VISION

---

To become a trusted partner in industrial automation and power transmission solutions across Indonesia, through reliable technology, professional service, and continuous innovation.

# OUR MISSION

---

- To build long-term partnerships with our clients through responsive service and practical, tailored solutions.
- To adapt to emerging technologies in industrial automation, offering efficient, accurate, and energy-saving solutions.
- To deliver professional technical services, covering installation, commissioning, maintenance, and field support.
- To uphold integrity, safety, and sustainability in every aspect of our operations.

# Our Complete Solution

We have a signature service team to provide a solution for our customers. We have been in the power transmission business for over 15 years, and have repaired any type of gearbox in various applications.

We can provide:

1. Installation and Commissioning
2. Overhaul Gearbox, replace bearing, and oil seals.
3. Upgrade Drive Units (Motor, Inverter, and Gearbox)
4. Condition Monitoring Service
